The Internet Service Providers and Connectivity Providers (ISPCP) Constituency welcomes the opportunity to comment on the Initial Report on CSC Effectiveness.

The ISPCP supports the recommendations and findings of the initial report on the Customer Standing Committee effectiveness review and moving forward, that this to be considered as input to the IANA Naming Function review. The latter is an important milestone for post IANA-transition ICANN. We commend the CSC review team for the quality of the work carried out in this review.

Philippe Fouquart
on behalf of the ISPCP
